

Please stop Pop Up Spam . It is invasive and costs money and time to stop it . That is until some other greedy company finds a way to prey on the public and send and expose little innocent children with inconcievable images of everything from porn to buying a car. This is taking away my rights of privacy and has corrupted my children. Once is too much. A person should be free to go where they want on line, but marketers should not be able to go where they want . That is like a pizza store delivering Pizza EVERYDAY to your house when you did not order it. YOU WANT IT WHEN YOU WANT IT!!!!
